Mr. Morrill, of Maine, from the Committee on Appropriations, reported a bill to supply the deficiencies in the appropriations for the contingent fund of the Senate.

mer employees upon the necessity of eating up their savings in high priced living, and at the same time locking up their capital of the country in greenbacks as the best investment. This state of things can not go on of course for any great length of time. The necessities of the government are great and must be met. Money must be unlocked and set afloat in order to meet them.
